Pursuing BCA Data Science (3rd Year)

Echelon Institute of Technology

12th (CBSE Board) – 2023

10th (CBSE Board) – 2021

EXPERIENCE

Freelance Web Developer

Self-Employed | Remote

Sports Injury Center – Healthcare Web Application

- Tech Stack: MongoDB, Express.js, React.js, Node.js, JavaScript, HTML, CSS
- Developed a full-stack healthcare web application for a sports injury and physiotherapy center using MERN Stack.
- Built this project for a real client.
- Implemented appointment request functionality with automated doctor email notifications for faster patient communication.
- Integrated WhatsApp chat, direct calling, and Google Maps for improved patient accessibility and engagement.
- Designed responsive and user-friendly interfaces for medical services, rehabilitation programs, and consultation pages.
- Built backend APIs and MongoDB database integration for managing patient inquiries and appointment requests.
- Optimized website performance and mobile responsiveness for better user experience.
- Live Project: thesportsinjurycenter.com
- I used AI-assisted development tools during the project, but I handled the project structure, feature implementation, deployment, testing, and customization myself.
